This project is that of the missile program. The students are the missiles to be projected
into outer space — the world.

The administration and faculty serve as the manufacturers and scientists who are responsible
for the preparation and launching of the students (the missiles) — upon graduation
— in the world — outer space.

The buildings are the proving grounds. The development is shown by the activities the

13-338

students share and enjoy as they learn and prepare themselves for the world and life. The organizations represent the regimentation and association that the students receive and obtain — the athletic programs help to develop the principles and standards of sportsmanship needed for future success.

These conditions make the freshman the first stage at launching, the sophomore the second stage, the junior the third stage, and the senior and graduate the missiles launched into the world of outer space — the world of today and tomorrow.

DEDICATION

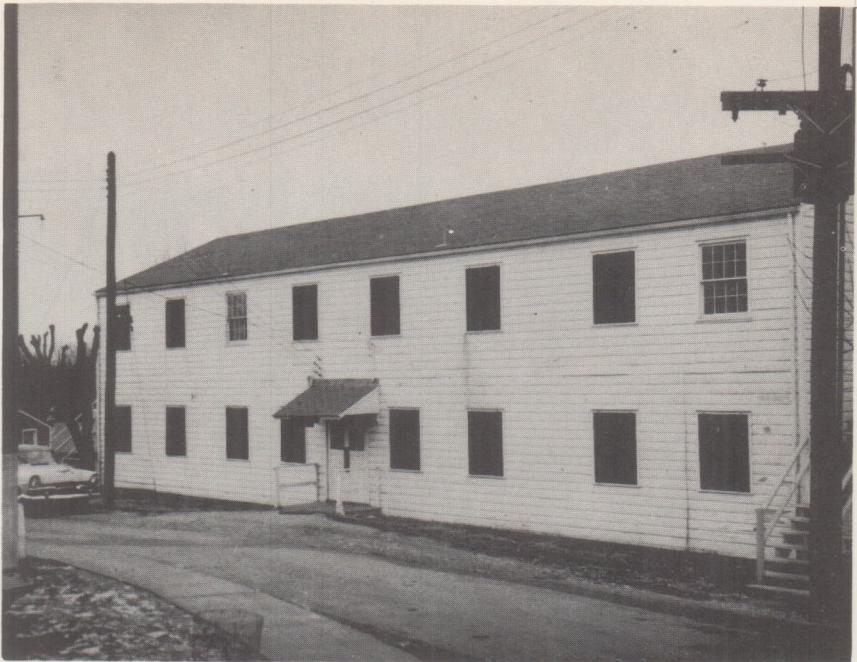

DOCTOR ALEX RICHARDS

DEDICATION

We, the students and faculty, dedicate this 1958 edition of the yearbook, "THOROBRED", to Dr. Alexis J. Richards, for his interest in education and its continued development here at Kentucky State College. He has served and is serving as an administrator, is one of the founders of the Midwestern Athletic Association and was secretary and treasurer of the organization for an extended period. He is head of the Department of Romance Languages and an ardent worker in education.

Time has demonstrated the worthwhile qualities of his contributions. The college family and the Commonwealth of Kentucky will always be indebted to him. The sincere appreciation of these two bodies has moved us to demonstrate and give thanks to him for his unyielding efforts and to wish well-earned success for a job well done.

OFFICE OF PRESIDENT

It is pleasing to be associated with a great and growing school. The faculty, the curricula, and the range of opportunities offered our students have grown with the years. This growth has come through the persistent efforts and spirit of admirers of quality education. Students now catch this spirit and upon graduation go out into the world dedicated to newer and better lives. Spirit alone will not make a great college, but blending learning and academic tradition with spirit it gives an additional value to degrees and college honors. May we never lose this spirit and may we never be satisfied with past achievements but look determinedly to our day in the future.

HISTORY OF OMEGA PSI PHI FRATERNITY

Omega Psi Phi Fraternity was founded on November 17, 1911, by Brothers Edgar A. Love, Oscar J. Cooper, Frank Coleman, and Ernest E. Just, now deceased. These four men, in the early part of the twentieth century, seized upon the cultural heritage of the human race and especially upon the heritage of their forefathers, and at their Alma Mater, Howard University, Washington, D. C., established the national Greek-letter fraternity, the Omega Psi Phi. In their founding the first national Greek-letter fraternity to be organized at a Negro institution of higher learning, the Omega Psi Phi Fraternity pioneered and blazed the way for other fraternities that have followed.

The four cardinal principles upon which Omega Psi Phi is founded are Manhood, Scholarship, Perserverance, and Uplift. The purpose is Racial Uplift Through Cultural Achievement and Inspiration.

The members of the Thorobred Yearbook Staff of 1958 present this documentary in pictures as a record of the activities and accomplishments at Kentucky State College this year

We were challenged by the Student Council and we were happy to accept as it affected our production of this Annual to some degree.

Our Editor was called to the Armed Services in the middle of our planning and the Associate Editor was appointed to the task of continuing this program.

Plans were developed to give the Student Body, and especially the Seniors, a book that would include the entire school year and many other activities that were not included in previous volumes.

The work developed gradually, the staff change was made, and the members gave their untiring efforts and cooperation, with the devoted aid of our Advisor, to make the program a success.

It is hoped that the memories will help you enjoy this Annual as much as we enjoyed working and preparing it for you.
